

Our cost-effective service and repairs keeps you in top gear

**FLEET SERVICE**  
SERVICE EXCELLENCE

## WHAT WE DO

Unique to the transport industry, our one-stop-solution is tailored to your needs, from ad hoc service and repairs to scheduled preventative maintenance. The last thing you or we want is you breaking down on a freeway.

By providing value-added services from total fleet management, refrigeration, tail-lift servicing and repairs to, logbook servicing using genuine parts at an affordable price.

Our aim is to play a crucial role as your partner, so you can stay focused on running your business.

## HOW WE DO IT

You've invested millions of dollars in your business and trucks just to see them grind to a halt because an unauthorised service/brake test was not to standard. Don't compromise your business with anything less than our Authorised Safety Check station.

We not only have skilled technicians but the right high-tech equipment. At Fleet Service, we go the extra mile to ensure your vehicle is as safe as possible, and we'll get you back on the road quick-smart and safe.

## OUR SERVICES

### Truck & Trailer Servicing

The most important step a driver can take to avoid unnecessary and costly repairs is to have his truck and trailer serviced regularly, as scheduled service and maintenance are essential for trouble-free driving.

### Inspection Station

Our inspection station is operated with specially trained staff under the RMS Authorised Inspection Scheme (AIS) to ensure that vehicles meet safety standards.

### Defect Lifting

Vehicles become unroadworthy for many reasons. These can include obvious faults, such as bald tyres and faulty brakes. At Fleet Service, we have the authority to fix and lift defect notices quickly to get you back to business.

### Mechanical Repairs

We have earned a reputation for fixing problems others can't. Our qualified technicians can carry out all mechanical repairs, from minor to major component issues, in our new purpose-built facility, with minimum downtime.

### Fleet Maintenance

Building preventive maintenance into your schedule like adjustments, lubrication, repairs, and parts replacements. This protects your assets from unscheduled downtime and major repairs.

### Brake Testing Station

By testing your brakes on our computerised testing equipment, we can determine quickly if any further maintenance is needed before it's too late.

## INSPECTIONS FOR HEAVY VEHICLES

The transport industry is under rigorous attention, and unfortunately, trucks will have problems due to industry demands. And, if your truck is down, you're losing money. So, it pays to use our Authorised Safety Check heavy

vehicle inspection station for roadworthy and defect lifting. Don't compromise your business with anything less than our dedicated one-stop-solution. Call Alan Bold at Fleet Service for Service Excellence on **02 8822 8180**
