

Scheduled Preventative Maintenance For Off Engine Drive Refrigeration Units

TRS Service offers a fixed-price Scheduled Maintenance Program for OED units — designed to keep your refrigeration running correctly, reduce the risk of unplanned repairs, and give you predictable servicing costs across your fleet.

6-Monthly Service

A Service

\$255.29

+GST

INCLUDES:

- Systematic unit inspection
- Start-up and controller operation checks
- Fan and coil inspection
- Belt tension check
- Set point verification

Annual Service

C Service - plus service kit

\$503.22

+GST

INCLUDES EVERYTHING IN THE A SERVICE, PLUS:

- Hardware and mounting bolt inspection
- Drive kit inspection
- Valve and wiring checks
- Gas pressure check
- Condenser wash
- Compressor belt and pulley replacement

Note: Service kit cost is charged separately due to significant variation across OED unit types.

ADDITIONAL SERVICES

Calibration Certificate (optional)

Available on request — charged in addition to A or C Service.

\$72.27 + GST (certificate)
\$90.71 + GST (labour per unit)

Mobile Servicing

If your vehicle can't attend one of our workshops, we can come to you.

\$181.43 + GST (per hour)

Service intervals follow manufacturer recommendations. We'll work with you to customise your maintenance schedule and add to the fixed-price program where needed. We'll notify you of any additional repairs identified during the service. Pricing is fixed until June 2027.
